

Varn Premier Fount GP

Advanced general purpose sheetfed/packaging fountain solution

Varn Premier Fount GP based on brand new technology, is a truly revolutionary general purpose fountain solution, tried and tested on all types of sheetfed/packaging presses. This fully buffered product is stable in all water conditions, and will dramatically reduce the need for alcohol, in many cases eliminating it completely.

Conscious of the health and safety of the printer, Varn Premier Fount GP utilises sophisticated technology resulting in a fountain solution with an effective preservative system that inhibits bacteria growth in pipes, fount pans or in the water system.

Suitable for use with all plates, inks, and dampening systems - Varn Premier Fount GP is a complete product that prints sharper and will give clean, quick start-ups with a definite reduction in ink consumption.

Varn Premier Fount GP has been formulated to meet the requirements and demands of the latest CtP technology used in today's sheetfed industry.

Features	Advantages	Benefits	Product Benefits
Reduces/eliminates alcohol (IPA).	Environmentally responsible. Safer working environment. No additional additives required.	Significant cost savings achievable. User friendly. One-step solution.	<ul style="list-style-type: none"> Alcohol reduced (typically 3-8%) or eliminated. Improved desensitising properties. Runs with less water and ink. Calcium friendly. Quicker start ups. Assists ink drying. For use on all types of plates. For use in all fount systems. For use with all inks. Low VOC. Environmentally friendly/biodegradable. Corrosion inhibited.
Universal.	For use on all plates, stocks, inks, dampening systems and water conditions. Increased production flexibility.	Complete versatility and enhanced performance. Cost savings.	
Minimal damp.	Reduced ink build-up on impression cylinders. Improved ink drying.	Reduced wash-ups of impression cylinder. Reduced set-off.	
Improved wetting system.	Reduced alcohol consumption. Reduced VOC's.	Denser colours. Increased ink mileage. Environmentally friendly.	
Stable buffer system.	Accurate control of pH.	Consistent print quality.	
Non-foaming.	Better dampening solution control.	Reduced waste.	

Directions for use

For optimum economy and performance use in conjunction with Varn Graphic Arts Doser DI-150. Dosage between 2 and 4% concentration to reach pH 4.8-5.2 depending on local water conditions.

Premier Fount GP 250 is available for hard water conditions (above 250ppm carbonate hardness).
